—Essential Concepts &/or Skills

Project: Basic Computer Terms _____

Creativity & Innovation MAKE IT!	Students each make a drawing using Tuxpaint. Drawings are put together to make a slideshow to be presented on school website.
Communication & Collaboration SHARE IT!	Slideshow is placed on website to share world-wide.
Research & Information Fluency FIND IT!	Students must use specific websites to search for the definition of their computer term.
Critical Thinking, Problem Solving, & Decision Making SOLVE IT!	Students must find the definition of their computer terms and put together as a slideshow to present.
Digital Citizenship PROTECT IT!	Students are not allowed to post their last name to the Internet to help protect their online identity.
Technology Operations & Concepts USE IT!	Students use the computer to search for definitions and to create a drawing. Students are to keep hands on home-row when they type their computer term definitions.
